---

With 24 years of experience in education, I am currently employed at Muskegon Area Intermediate School District as the School Improvement/High Priority Schools/Response to Intervention consultant. Prior to that, I worked in Muskegon Public Schools in a number of positions including classroom teacher, Resource Teacher providing professional development for district colleagues in reading, writing, and instructional technology, and ten years as a building principal. During the time as principal, I participated in two On-site Reviews with Office of Field Services consultants resulting in intensive engagement with Federal Title program requirements, the Schoolwide Rubric, OFS "District/School Study Guides," and Advanc-Ed online school improvement templates and tools. As a building principal, I worked with the building school improvement teams to supervise the planning, budgeting, implementation, monitoring, and evaluation of continuous school improvement initiatives.

Since coming to Muskegon Area ISD, my role as School Improvement Consultant has included acting as liaison between Advanc-Ed, and local Muskegon County district and building school improvement team members. This has included providing on-going professional development on the completion of school improvement templates and on-line reporting, best practices for core instruction, interventions, and reform initiatives, and answering questions regarding information from MDE Office of Improvement and Innovation related to continuous school improvement processes and procedures. I currently serve as the Region 2 representative for the board of directors of the Michigan Association of State, Federal Program Specialists.

I am willing to work with schools on Schoolwide Planning in Regions 2, 3, and 4.
